VIRTUAL Soccer Training

Provides in-depth instruction to youth soccer players.

Parents or Players can now decide where and when they receive the needed instruction from licensed soccer coaches to develop their foot skills or techniques via Interactive video conferencing. The MOTI Coach can observe the player and the player can see the Coach (players cannot see other players) in these sessions. Players will require a computer, tablet or other smart device for communicating online during the Virtual Training Session. They will also need a Soccer Ball and some objects for marking the grid or dribbling pattern. When you sign up you pick the age group (6-10 or 11-14 years of age) for your player, choose the training schedule for you and your player, and register reserving your player’s position on the team. The cost of Virtual Soccer Training for 5 weeks (10 sessions) is only $79. We also offer a 5 day Camp (5 sessions) for only $49 (plus taxes as applicable). These sessions also include the use of our MOTI Mobile Soccer App, giving your player 3D visual and expert audio clues to work on their skills before, during and after the virtual coaching session.
